

Invites you to attend a special (2 ¼) credit AIA & IDCEC Continuing Education Program

## Life Cycle Assessment

AIA Course # LCA001 Bentley Prince Street Provider #L210 CEUs 1.25 HSW: Yes Sustainable Design: Yes  
 IDCEC Course # 5710 Subject Code: 2.1 CEUs 0.1 Designation: Welfare

Learn the principles of Life Cycle Assessment including how LCA's account for the environmental tradeoffs and the shifting of environmental burdens that other sustainability "checklists" do not; The steps of conducting an LCA and how the results can be used to choose environmentally friendly products or to improve the environmental performance of a product over its life cycle; Intro to Environmental Product Declarations (EPDs) and why they are an important tool to obtain transparent verified environmental impacts of products.

### Presenter: Victoria Rickert, CSI, CDT

Beginning with US Home Corp in Washington, DC, Victoria Rickert has more than 20 years of residential and commercial construction experience. She has worked in design, sales, project management, general contracting and business owner capacities. Currently she is an independent agent specializing in the emerging category of LEED contributing commercially rated interior finishes. This USGBC based effort, reflects her commitment to contribute to the worldwide movement towards sustainable design. Learn more at [www.greensourcesolutions.net](http://www.greensourcesolutions.net). Victoria also consults with interior finish manufacturers in the areas of technical education, specifications and marketing including sustainable product assessment. Past President of Vermont Chapter of CSI, she has co-organized and MC'd five consecutive Green & Sustainable Conferences for our Chapter. Victoria is a Certified Interior Design Continuing Education Council (IDCEC) Presenter and Certified AIA CES Presenter.

## Fiber 101

AIA Course # 7989 Antron Provider #J649 CEU's 1.0 HSW: Yes  
 IDCEC Course Subject Code: 5:8 CEUs: 0.1 Designation: Welfare

This course will take the architectural and design professional through a comprehensive overview of carpet fiber types and applications for commercial carpet. This course includes a discussion about fiber engineering, polymer base and soil resistance technology.

### Presenter: Kimberly C. Sears, Fiber Consultant

Kim is the Invista Fiber Consultant for New England. An Invista Senior Trainer, she has an extensive background of 15 years in technical training and education in pharmaceuticals and polymer-based applications. Kim is a Certified Interior Design Continuing Education Council (IDCEC) Presenter, AIA CES Presenter, and Certified Carpet and Rug Institute Instructor (CRI).
